

# Vari Bass Ultra

PROFESSIONAL AUDIO / HI-FI & HOME CINEMA

## Description

Bass frequency resonance is one of the most difficult acoustic issues to solve in any room. Until now, the most effective options have generally involved using bass traps that are specifically designed, or customized, to fit in a specific room. However, these solutions can often be expensive and invariably involve complex measuring procedures. There's also little scope for flexibility if changes are made to the listening space, such as moving furniture or acoustic gear.

Vari Bass Ultra is designed for use in any professional recording space, home studio, or HI-FI room. Made from MDF with Melamine, it includes high-density acoustic foam in the interior that was covered with grey fabric. The bass trap can be tuned between 50Hz-100Hz by simply moving up or down its top (which has a series of resonant pots) until the problem disappears. A scale is included to show the exact frequencies on which the Vari Bass Ultra is acting. The unit's stand-alone structure enables it to be repositioned as required and used in different rooms.

## Available Finishes\*

### Melamine

 <b>Black Mate</b> U999PM	 <b>Dark Wenge</b> H1116
 <b>White Mate</b> W1000PM	 <b>Locarno Cherry</b> H1636
 <b>Metallic Copper</b> F570	 <b>Brown Oak</b> H1399
 <b>Metallic Gold</b> F571	 <b>Natural Oak</b> H3395

\* Different batches may show a color variation

## Dimensions\*\*

a) 600 x Ø370" / 23.6" x Ø14.5"

\*\* For each panel. Please notice that the dimensions of these panels have a tolerance of +/- 2mm

## Packing Information

**Units per box:** 2

**Box:** 745 x 415 x 600mm / 31.2" x 16.3" x 23.6"

**Box Gross Weight:** 18.6kg / 41lb

## Technical Information

**Material:** MDF with melamine, foam covered with grey fabric.

### Fire Rating:

- Europe: N/A
- USA: N/A
- Canada: N/A

**Installation:** Manually assembled - no tools required
